WORK EXPERIENCE

Junior Associate Developer   May 2024 -
Metafox Technologies

- Gained hands-on experience with Laravel for both web frontend and backend development, successfully building and deploying 6+ custom websites tailored to client needs.
- Proficient in web design and backend functionality, ensuring responsive and user-friendly interfaces.
- Learned to understand client requirements and adapt projects accordingly during the internship.
- Acquired knowledge of e-commerce systems, including key components like shopping carts, orders, and user management.
- Developed expertise in database management, optimizing queries and integrating databases seamlessly, resulting in 30% faster load times and smoother data retrieval across applications.

SKILLS

Languages: Java, JavaScript, HTML, CSS
Frameworks/Libraries: Laravel, Node.js, React.js
Developer Tools: Git/ Github, VS Code, Postman
Databases: MongoDB, MySQL

PROJECTS

QR Scanner

- Built a mobile and desktop application to scan QR codes, extract batch numbers, and verify them against user input.
- Designed the system to minimize human errors by validating box delivery details and ensuring correct batch assignments.
- Developed the application to function seamlessly on both mobile and desktop platforms for versatile usage.
- Designed the project to minimize human errors and ensure the correct items are delivered to the supplier.

Digital Menu / **Ezzorder** / *React, NodeJs, MongoDB, ExpressJs*

- Designed and implemented a seamless digital menu and payment system for restaurants, enhancing customer convenience and streamlining transactions.
- Implemented a platform that reduced wait times and improved operational efficiency.
- Created a centralized operational control dashboard, optimizing overall business efficiency.
- Integrated a user-friendly feedback system, allowing customers to provide instant reviews and ratings to improve service quality.
- Technologies used: MERN (MongoDB, Express, React, Node).

E-commerce Website / **Asom24** / *Laravel*

- Created and customized an e-commerce website tailored to the client's needs.
- Implemented multi-role functionality for admin and user.
- Created various pages including Contact Us, Cart, and Dashboard.
- Worked closely with the client to gather feedback and implement features.
- Technologies used: Laravel PHP, MySQL database.
- Integrated advanced search and filtering options, enhancing the user's ability to find products quickly and easily.

ACHIEVEMENTS

- Arya Exergie CSS Competition(2023)(Secure 1st position).
- Participated in District Cricket (2020)
